Supplement:

In addition to the above-mentioned main products, our company has our own product R&D center, which can be customized according to customer needs to meet the product needs of different customers in different markets.

Sun Shade Net

Designed to control the amount of sunlight on the crops,providing great benefits such as controlling the level of light that plant receives and controlling the temperature in the growing area,however well placed,not only offers shade,it can also protect against certain types of insects,rain,wind,hail,etc

RASCHEL
NET

Available Color: Green, Sand,Black,Brown,Red...

Knitting Machine: Projectile Machine & Warp Knitting Machine

Widely used in nurseries for seedling sand flowers.They are also ideal for providing shade in stables and pens

Sun Shade Net

Projectile Machine

This kind of sun shade net woven by projectile machine has higher flatness and multiple monofilament threads in the warp direction, so the strength will be higher and it can withstand a certain amount of snow and ice coverage (also called anti snow net).

The shading rate is mainly 50% to 80%. Favored by European customers.

50% Shading Net

Material : 100% NEW HDPE + U.V
Gram Weight: 55gsm-65gsm
Available Color: Black, Brown, Green...

65% Shading Net

Material : 100% NEW HDPE + U.V
Gram Weight: 70gsm-90gsm
Available Color: Black, Brown, Green...

60% Shading Net

Material : 100% NEW HDPE + U.V
Gram Weight: 65gsm-80gsm
Available Color: Black, Brown, Green...

Sun Shade Net

Warp Knitting Machine

The main advantages of warp knitting machines are high productivity and easy modification. Therefore the application range is very wide. In addition to providing shade for various crops, the high-gram weight shade net can also be processed into shade sails, privacy nets, fence nets... which are used in home courtyards, parking lots...

Gram weight: 30gsm to 390gsm
Maximum width: 16m
Available Color: Black, Green, Red, Brown...

Anti Insect Net

Designed to prevent the entry of harmful insects such as thrips, aphids, leaf miners, beetles, whiteflies, etc ... that could threaten crop production. In addition, the insect nets can prevent up to 24% of excessive sun exposure and maintain air circulation.

The common meshes are 10x16' and 10x20' 6x6' and 6x9'.

Insect Nets

Protecting it against the intensity of the wind, and regulating the entry of sunlight, better control of the temperature and humidity level inside the greenhouse.

Insect Nets of 20x10' Mesh

Material: 100% New HDPE + U.V
Gram Weight: 120gsm--140gsm
Available Color: White & Black

Anti Insect Nets

Insect Nets of 16x10'Mesh

Material: 100% New HDPE + U.V
Gram Weight: 100gsm--120gsm
Available Color: White & Black

Insect Nets of 6x6'Mesh

Material: 100% New HDPE + U.V
Gram Weight: 60gsm--80gsm
Available Color: White & Black

Mainly to Prevent Large Insects

Insect Nets(Amazon Products)

Material: 100% New HDPE + U.V
Common Size: 10x10 ft, 6.5x15ft, 10x15ft, 10x20ft...
Common Meshes: 10x10' Mesh, 6x9' Mesh
Color: White

Inner Packaging: PE Bags and Color Label
Outer Packaging: Neutral Carton

Insect Net Bags

Processed from insect nets, used for the transportation and packaging of fresh fruits.

Anti Hail Net

All are woven from monofilament threads, with high breaking strength, so that the overall mesh can withstand large impacts, thereby protecting fruits, crops and trees from hail.

Hail
Nets

Main Color:White & Black

Anti Hail Net

For anti-hail nets, the main weaving machines are projectile machines and warp knitting machines. The anti hail nets woven by projectile machines are very popular in the European market.

There are mainly the following three styles

Anti Hail Net(Projectile Machine)

Material: 100% New HDPE + U.V
Gram Weight : 45gsm to 75gsm
Opening Size: 3x7mm, 3.38x2.19mm, 4.38x2.19mm...
Color: White & Black

Anti Hail Net(Warp Knitting Machine)--Square

Material: 100% New HDPE + U.V
Gram Weight: 30gsm to 80gsm
Color: White, Green...

Anti Hail Net(Warp Knitting Machine)--Crescent

Material: 100% New HDPE + U.V
Gram Weight: 30gsm to 80gsm
Color: White, Green...

Olive Net

The net is woven from monofilament threads, and its weight is mainly 90gsm. It is mainly used to collect olives.

Olive Net

Material: 100% New HDPE + U.V
Gram Weight: 90gsm
Color: Green
Large Size: 6x50m, 8x50m, 10x50m...(Packing in roll)
Small Size: 10x10m, 8x8m...(Packing in PE bags)

Ground Cover

Weed Barrier(Weed Control Mat)

It prevents the transmission of sunlight, reduces photosynthesis and prevents the growth of weeds. Besides, keeps the soil moist during dry periods, reducing evaporation, thereby reducing the need for irrigation by up to 30% and It can drain the accumulated water in time, keep the ground clean, make the parasite lose the parasitic environment, and improve the overall environment.

ANTI-WEED
MESH

Main Color: Black & White

This net can be used both in the open field and inside greenhouses.

Ground Cover

1. Knitting machine: Projectile Machine and Circular Weaving Machine.
2. Circular Weaving Machine are generally only used for the production of black ground cover.
3. The ground cover with square grid and white ground cover are woven by projectile machines, and have better flatness, which are favored by customers in the European and Australian markets.

Ground Cover

Material: PP + U.V

Gram Weight: 100gsm, 110gsm, 120gsm...

Color: Black & White with Green Line

Ground Cover with Square Grid

Material: PP + U.V

Gram Weight: 100gsm, 110gsm, 120gsm.....

Color: Black & White with Green Grid

Ground Cover(Amazon Products)

Material: PP + U.V

Gram Weight: 100gsm, 110gsm, 120gsm.....

Color: Black & White with Green Line

Accessories--Staples Stakes Pins

Material: Galvanized Iron

Length: 6"

Anti Bird Net

Designed specifically to prevent the entry of birds to orchards and crops, which damage and reduce production, while not acting as a trap for them.

Due to the different weaving structure, there are mainly the following three styles

Bird Nets

In addition to being used to prevent birds, it also has a certain wind-proof effect, so that all kinds of fruits and crops can grow better.

Anti Bird Nets(Ordinary Style)

Material: 100% New HDPE +U.V
Gram Weight: 20gsm to 45gsm
Main Color: White, Green and Black
Opening Size: 15x15mm, 20x20mm

This is also often used to sell on Amazon

Anti Bird Net

Special Styles

The following two types of anti bird nets are our improved styles based on the needs of the market and customer.

Deeply favored by European customers and South American Customers.

Anti Bird Nets

Material: 100% New HDPE + U.V
Gram Weight: 30gsm to 40gsm
Opening Size: 8x12mm...

Anti Bird Nets

Material: 100% New HDPE + U.V
Gram Weight: 30gsm to 40gsm

Sun Shade Sail

The sun shade sail is made of high gram weight sun shade nets. The most common gram weight is 180gsm. Mainly used in parking lots, courtyards, etc.

Generally used for supermarket retail or sales on Amazon

Sun Shade Sail(Triangle)

Material: 100% New HDPE + U.V
Gram Weight: 160gsm to 180gsm
Color: Red, Sand, Grey, Cream...
Common Size: 10x13ft, 8x12ft, 12x16ft, 16x16ft..

Sun Shade Sail

In addition to triangle shade sails, there are also quadrangle shade sails with the gram weight of 180gsm.

Common Size: 12x12x17ft, 16x16x16ft, 12x12x12ft, 16x16x22.64ft...
